

# INFORMATION DIGEST

OCTOBER 27-28, 2023

## Status of the Ukrainian nuclear power plants and the nuclear industry of Ukraine

- According to SE NNEGC Energoatom, on October 27-28, 2023 power units of Ukrainian nuclear power plants, which are located on the territory controlled by Ukraine, worked to meet the needs of the population and the country's economy.

### Current situation on Zaporizhzhya NPP

- According to the SE NNEGC Energoatom as of October 27-28, 2023, the Zaporizhzhya NPP received power for its in-house needs from the energy system of Ukraine. As of 08:00 on October 27-28, 2023, the radiation state at the Zaporizhzhya NPP was within the current norms. SE NNEGC Energoatom reports that as of 08:00 on October 28, the water level in the cooling pond of Zaporizhzhya NPP was 15.69 m. The situation remains stable and under control.

### Current situation on Chernobyl NPP and in the Exclusion Zone

- On October 27-28, 2023, the radiation situation at the ChNPP site was without changes. The monitored parameters of the equipment were within the boundaries set by the technological regulations. Operating personnel continues to ensure nuclear and radiation safety.

## War in Ukraine

- On October 28, 2023, is the 612 day of the resistance of Ukraine to the russian military invasion.
- According to the General Staff of the Armed Forces of Ukraine, fighting has been ongoing near the cities of Bakhmut and Avdiivka [eastern direction], which the russians are trying to encircle, the russian forces have launched unsuccessful assault operations on the Kupiansk and Marinka fronts. Ukrainian troops have engaged in 60 combat clashes with the russians over the last day, with the majority of attacks on the Mariinka front repelled. The russians launched 8 missile strikes and 15 airstrikes, and attacked positions of the Ukrainian forces and populated areas 61 times, using multiple-launch rocket systems.
- On the northern fronts, russian forces are maintaining their military presence in the border areas, undertaking sabotage activities to prevent Ukrainian troops from being deployed to vulnerable areas, and increasing the density of minefields along the state border in russia's Belgorod Oblast.
- In the area of responsibility of the Odesa Operational Strategic Group on the Kherson front [southern Ukraine], Ukrainian Defence Forces are leading their counter-battery operations.

***In the photo, the legend of the Pavlograd search and rescue canine unit "Antares" is the Belgian shepherd Sparky. She is 10 years old. Sparky's most important mission is to bring people back from oblivion. Her whole life is a search for missing people. Sparky constantly helps the emergency services, police and military. On her personal account, just from the beginning of the full-scale invasion, several lives were saved and more than 140 dead people were found. Sparky works on the most difficult obstacles and in dangerous situations. We are grateful for service, Sparky!***
